ADHESIVE FOAM TECHNOLOGY

MADE IN GERMANY

When selecting our performance foams, we place great emphasis on quality, grip and durability. In order to meet these requirements, we have our adhesive performance foams manufactured in Germany.

SUPERGRIP+

High-performance adhesive foam with the ultimate grip. The colour-neutral natural latex, combined with adhesive particles specially developed by uhlsport, provides maximum grip and the best possible ball control.

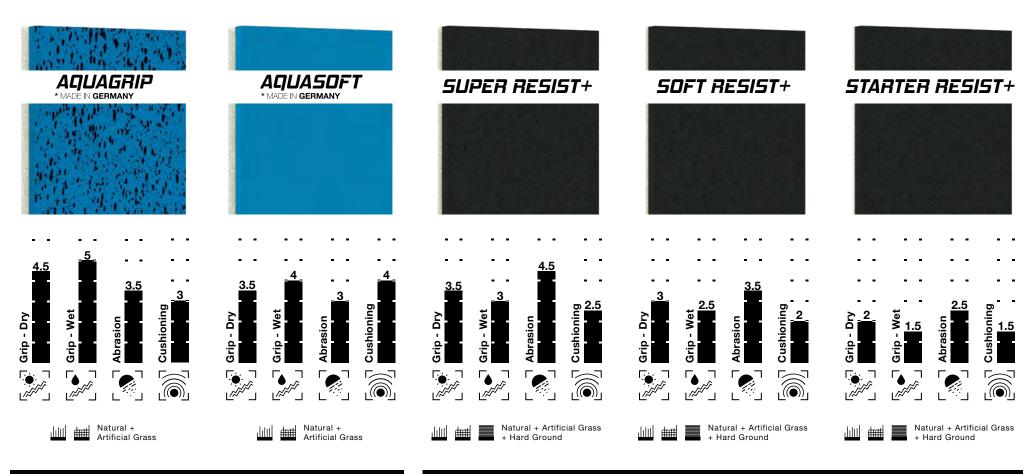

ABSOLUTGRIP

Our high-performance adhesive foam all-rounder. The patented latex compound offers you the optimal balance between the best possible grip and abrasion resistance.

50FT

Our SOFT range is made for all beginners and ambitious amateur athletes. Each latex compound offers a different balance of grip and abrasion resistance. The best balance simply comes down to your preferences.

AQUA

Our AQUA foams are your first choice for a wet match. Thanks to special AQUA additives, both our AQUAGRIP and our AQUASOFT guarantee particularly good performance in wet weather conditions.

RESIST+

RESIST+ is what counts when the going gets tough. The latex compound specially developed for artificial turf and hard floors is based on optimised foam properties that are particularly abrasion-resistant and robust.

CUT-TECHNOLOGY

REFLEX CUT

FINGER SURROUND CUT

HALF NEGATIVE CUT

CLASSIC CUT

Internal seam construction for a skin-tight fit and a direct feel on the ball.

Internal seam construction and maximum grip surface for a close fit and secure catching.

Internal seam construction incl. finger gussets incorporated between the palms and the backs of the hands for an optimal fit and high wearing comfort.

Outer seam construction incl. finger gussets incorporated between the palms and the backs of the hands for a wider fit and secure catching.

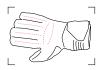

FLEX FRAME CARBON

The innovative FLEX FRAME CARBON technology ensures maximum finger stabilization thanks to its innovative construction in combination with carbon-reinforced fibers. The new lightweight construction makes the frame hardly noticeable.

FLEX FRAME

The innovative FLEX FRAME technology ensures optimal finger stabilization without compromising catch mobility. Innovative materials as well as the ergonomic construction of the frame ensure optimum flexibility and maximum support.

PCWERLINE

Provides maximum flexibility and perfect punching.

New 3D foam thermoforming for maximum felxibility.

New wrap-construction for maximum grip in all catching situations.

Body material provides perfect breathability and wearing comfort.

Elastic entry guarantees maximum flexibility and wearing comfort.

SUPERGRIP+

Foam ensures thanks to high-performance foam plus integrated "high grip" elements ultimate grip in all weather conditions.

DUAL FIX SYSTEM

Innovative closure system for optimized fixation and maximum flexibility of the wrist.
