Grindsted GGIF

NEW NO RESIN NEEDED

SPECTRUM SYNERGY SPIN

PWR GRIP material with **HIGH GRIP** line structure for ultimate grip and excellent ball control.

The innovative 'invisible seams' production process improves roundness and guarantees maximum dimensional stability. Combined with revolutionary grip thanks to additional X2 foam and textile lamination, this handball technology sets new standards.

Multi-layered X2 lamination increases the rebound and softness of the ball.

textile lamination provides excellent roundness and supports the stability and robustness.

The latex bladder with textile lamination stops over inflation while minimising air loss.
